

Aashima Arora

Software Engineer

98-R Model Town, Rohtak
arora.aashima16@gmail.com
7206573632

TECHNICAL SKILLS

Programming Languages

Java, AngularJs

Frameworks

Play

Others

MySQL, OpenTSDB, Hibernate,
HTML, CSS

EDUCATION

2013-2017

Computer Engineering
Vaish College Of Engineering,
Rohtak
8 CGPA

2011

Class XII, CBSE
Model School, Rohtak
70%

2009

Class X, CBSE
Model School, Rohtak
80%

WORK EXPERIENCE

April, 2017 – Present

Software Engineer

Logic Ladder Technologies, Gurugram

PROJECTS

EnviroLogicIq

A platform that gathers data from remote environment analyzers like- effluent monitors, continuous emission monitoring systems, and ambient air quality monitors. EnvirologicIq gives visibility and control of environmental data and timely information on and before potential non-compliance.

Online Pollution Monitoring System

A platform for insight into your environment data. It acquires data from environmental sensors and analyzers in real time and stores it in TSDB. Analyze and generate report, process improvements and environment performance management.

EnergyLogicIq

It is a cloud-based energy management software which is designed for achieving and maintaining energy savings. It gathers energy data from different sensors installed remotely and processes that data to calculate pinpoint causes of energy losses, insufficient assets and identify areas of improvements. It displays energy data through multiple reports, charts and graphs which can be exported to Excel, PDF or CSV format. It also generates alerts for inappropriate conditions and sends these alerts to respective person and authority over email and SMS.

ACHIEVEMENTS

- ❖ Winner in Group Dance Competition at Zonal Youth Festival 2015
- ❖ Third prize in Group Dance Competition at Unifest-15 Inter-Zonal Youth Festival 2015
- ❖ Finalist in Rangoli Competition at Annual Talent Hunt competition 2013
- ❖ Member of Anchoring Committee at Youth Festival '14
- ❖ Member of NCC(National Cadet Corps) and participated in various camps
