Methods	Functional Testing, Regression Testing, Automation/Manual Testing
Programming languages	Core Java, PHP
Database	MySQL, MS Access
Managing Tool	JIRA, GIT, Bugherd, Mentis
Development Tools	Eclipse IDE
Other Testing Techniques	JS error detection and Fiddler, Postman, Advance REST Client, WCF test client
Web	HTML, CSS, JavaScript, jQuery, JSON, XML, XSD, XSLT

## Education

---

**Qualification(s)** : Bachelor of Engineering degree in Computer Science and Engineering from Maharana Pratap College of Technology, Gwalior, with 74.4%.

## Professional Experience

---

- **Gaurish Technologies Pvt. Ltd.** – Apr 01<sup>st</sup>, 2010 – Oct 17<sup>th</sup>, 2014.
-

## Project Description

---

**Project:** eChemhub (Web application to trade chemicals for US based customer)  
**Duration:** Jan 2014 – Oct 2014  
**Role:** Technical Lead  
**Tools/ Technologies:** Selenium Webdriver, TestNG, Java, Maven, Eclipse, Cucumber

**eChemhub** is a web application build to deal with chemical products. Client adds their own chemical products to sell. On other hand end user can buy, send enquiry for the products as per their need/interests. **Chemhub** offers high-quality synthetic and natural products for development in the pharmaceutical, cosmetics and speciality chemicals industries where as **Chemodynamics** provides details of various molecules.

Responsibilities:

- Analyzing user stories, creating the automation bucket as per stories and segregating manual test cases.
- Automate web flows using Web driver/Java for windows platform.
- Logging any bug found in JIRA.
- Attending standup calls and updating with issues and status.
- Checking for thing that could have better in the sprint end retrospective meeting.

## Project Description

---

**Project:** It's a Bookstore (Web application to maintain inventory for US based client)  
**Duration:** Feb, 2013–Dec, 2013  
**Role:** Senior Developer/ Automation Tester  
**Tools/ Technologies:** Selenium Web driver, Eclipse, JAVA, MYSQL

**It's a Bookstore** is a Books management system, provides single platform for selling books over amazon and updating quantity, price & generating various reports to check the inventory with Amazon merchant account.

## Project Description

---

**Project:** Eduspace  
**Duration:** Apr, 2012 –Jan, 2013  
**Role:** Senior Developer/ Automation Tester  
**Tools/ Technologies:** Selenium Web driver, TestNG, Eclipse, JAVA, MYSQL

**Eduspace** is an online E-learning management system which provides single platform for all school & college needs. This tool helps schools/colleges to understand the performance of students based on their class performance with the relevant reports. Faculty performance over tasks or course can also be tracked and analysed with the online tool.

## Project Description

---

**Project:** Global Practice Network (Web Portal for US based client)  
**Duration:** Nov, 2011 –Mar, 2012  
**Role:** Senior Developer  
**Tools/ Technologies:** PHP, AJAX, jQuery, JSON, CodeIgniter, MYSQL, Notepad++

**Global Practice Network** Global Practice Network is a Collaborative Data Systems; it remains the best CDS for the wealth advisory industry. Attorneys, accountants, bankers, elder care, financial advisors, insurance agents, investment bankers, and trust officers are just a few of the professionals enjoying this easy-to-use CDS while enhancing client service, efficiency, and cross discipline relationships.

## Project Description

---

**Project:** Your Club Host (Web portal for US based client)  
**Duration:** Mar, 2011 –Nov, 2011  
**Role:** Senior Developer  
**Tools/ Technologies:** PHP, AJAX, jQuery, JSON, Kohana, MYSQL, Notepad++

**Your Club Host** This application is all about delivering consumers everything they need for researching, planning, and purchasing their nightlife experience.

## Project Description

---

**Project:** Shoppingthing (Web Portal for US based client)  
**Duration:** Apr, 2010 –March, 2011  
**Role:** Web Developer  
**Tools/ Technologies:** PHP, AJAX, jQuery, JSON, CodeIgniter, MYSQL, Notepad++  
**External APIs:** Facebook, AMAZON, eBay APIs

**Shoppingthing** is a web application, which was designed to keep tracking eBay and Amazon products for merchant accounts.
