Tools & Technologies

- Selenium With Java

Summary

Deadline oriented **Software tester** with an experience of **3.9 years** in **Manual** and **Automation** testing of both **Web & Mobile** Applications. Easily **collaborate** with Project manager, team members and clients to achieve the milestone. Good experience of **testcase writing**, **testcase execution**, **testcase review**, **test script creation** and **test script execution**. Working knowledge of **waterfall & Agile methodologies**.

Organization

Working as Associate Consultant with **Capgemini Pvt Limited, Pune** From Oct'2018 to the current date.

Worked as Software Engineer with **Syntel Pvt Limited, Pune** from Nov, 2015 to Oct'2018.

Experience

HAWK Program Team -Atlas Air (April'2019 – Current Date)

Working as a **single independent** resource for Quality assurance. This project is basically developed to manage the status of all the Atlas Air Flights. I have got the exposure of doing **functional & API testing** using **Azure and Postman**. For test management activities, used **Rally**.

Catering tool Management - Atlas Air (Oct'2018- March'2019)

Worked with 2 more enthusiastic QA. This project was developed to manage the catering activity in the upcoming Atlas Air flights so that flights are always on time and the passengers are never out of food. I have learned the **Gherkin format** (Cucumber) of testcase creation and did the **functional testing** for this project. For test management activity, we have used **QA complete**.

FedEx Mobile COE - FedEx (Sept'2016 – Oct'2018)

Worked with a fabulous team of 22 in **Agile Methodology**. Worked as a **Mobile app tester (Android & iOS)**. This project is basically developed to make the tracking, packaging and dispatching of Couriers easier for customer. We have used **Seetest for Manual & Automation** (using TestNG) and **Perfecto** tools for testing of this Application. For Story execution & test related activities, we have used **Agile Manager & HP ALM, Team Center** respectively.

FedEx Pick up & Delivery – FedEx (April'2016- Sept'2016)

Worked in a team of 3 bug finders in **Agile /methodology**. This project was developed to ease the work of hardworking delivery person so that the status of the package which has to be delivered can have a proper track record. We have used **LEAnFT** for Automation & **HP ALM** for test related activities.

Equip tool- Dec'2015-April'2016)

Worked with a team of 5 people for a **web Application**. We have used **Selenium with Java** for this project. This project is an Effort tracking tool of Syntel. The daily efforts invested by any employee is maintained in this

- Seetest with TestNG
- Perfecto
- Cucumber (Gherkin Format of testcase creation)
- Postman
- MySQL
- QA Complete
- Rally
- JIRA
- Agile Manager
- HP ALM
- Agile Manager

Interests

- Cooking
- Writing

Achievements

- School House Captain (2010-2011)
